

Sustainability Procurement

COIM Group recognizes that sustainability is embedded in the procurement process and that incorporating procurement into its sustainability policies is essential to its goal of making a sustainable contribution to society and the environment.

COIM Group is committed to considering the environmental, social and economic impacts during its procurement process.

COIM Group promotes sustainable activities along the value chain involving its suppliers and driving them in the improvement of their sustainable performances.

COIM Group guarantees:

- ❁ The commitment to foster innovation in its supply markets with the aim to increase the availability and effectiveness of sustainable solutions that meet its organizational requirements.
- ❁ The commitment to work in partnership with suppliers to achieve its common goals and continuously improve own performances over time.
- ❁ The right to refuse partnerships with organizations that do not achieve or guarantee the respect of the Universal Declaration of Human Rights and the International Labour Organization's (ILO) Declaration on Fundamental Principles and Rights at Work.
- ❁ The commitment to integrate the appropriate environmental and social requirements within the value chain, through a supplier qualification process.
- ❁ The commitment to encourage and influence suppliers to improve their sustainability practices.
